Market Reach

EVERGREEN

Our Vision

To be a globally recognized pioneer in exporting premium Indonesian spices, driven by excellence, sustainability, and long-term strategic partnerships.

Our Mission

1

Providing high-quality premium spices through strict selection and production processes from Indonesia's finest spice-producing regions.

2

Developing international-standard production systems with modern technology and sustainable practices.

3

Partnering with verified farmers and suppliers to ensure a stable supply chain while supporting agricultural communities.

4

Offering efficient global export services with reliable logistics and compliance with international regulations.

5

Delivering flexible solutions through white labeling and long-term supply contracts to meet diverse business needs.

6

Promoting Indonesian spices to the global market by increasing awareness of their quality and benefits worldwide.

Our Values

01

Focus on producing premium spices

We deliver high-quality spices with strict selection from the start. Each product is sourced from the finest raw materials, processed to a high standard, and packaged to maintain its purity and original flavor.

02

Using the best production technology system

We implement a modern production system with cutting-edge technology to ensure quality and efficiency. Every stage of production is closely monitored to maintain hygiene, safety and product consistency standards.

03

Farmers with years of experience

Our farmers have been cultivating spices for generations. Their expertise in farming results in products with the best aroma, flavor and quality.

04

Quality development by experts

Our team of experts continuously conducts research and innovation to improve the quality of spices. Precise and high-standard processing ensures our products meet the demands of the global market.

05

Packaging customization and white labeling

We offer flexibility in packaging as per market requirements, including white labeling options. A variety of packaging options are available to ensure the product maintains its quality and is visually appealing.

06

Quality control by national export standardization bodies

We deliver high-quality spices with strict selection from the start. Each product is sourced from the finest raw materials, processed to a high standard, and packaged to maintain its purity and original flavor.

Our Service

01

Export and global distribution

We export premium spices to global markets with efficient logistics systems and adherence to international standards.

02

White labeling

We provide white labeling services, allowing customers to sell spices under their own brand, complete with customizable packaging.

03

Continuous supplier with contract

We offer a continuous supply of spices through contracts, ensuring quality, stable prices and long-term availability.

Catalog

01

White Ginger

White ginger (*Zingiber Ffficinale Rosc*) also known as Elephant Ginger, is a premium spice from Indonesia widely used as a cooking ingredient, complementary component, and natural herbal product. Known for its distinctive aroma and flavor, white ginger is a key ingredient in various industries, from food and beverages to traditional medicine.
